about me

Born in Ipswich, UK in 1992 and raised in Rome, Italy, I have always been interested in art and self expression in all its forms.

In 2017 I graduated with honours in Sculpture at RUFA Rome University of Fine Arts. I then worked as a graphic designer for APP Web Agency and later continued my education with a 6-month stop-motion animation specialisation course at IED led by Stefano Bessoni in 2017.

In September 2018 I became co-founder of <u>Fantasmagorie Studio</u> (Rome, Italy), where I mostly work as a director and animator.

In 2019 I took my Masters Degree in stop-motion animation at BAU Centro Universitario de Diseño, Barcelona, Spain.

Later that year, I interned at Citoplasmas stop motion animation studio, Barcelona, Spain.

In 2022 I participated to StopMoLab, a 9-month training in stop-motion animation organized by Momakin, online and in Łódź, Poland.

During the years I have been working on many diverse animation projects and this gave me the opportunity to refine my skills as an artist.

I am extremely passionate about stop-motion animation and always looking for new challenges and projects to bring to life.
